

# Purple Asia Overview

Technology that inspires. Purposefully delivered by experts.

Your business needs are unique - so the solution you need to achieve outcomes is, too. Our experts orchestrate technology into a solution that's purpose-built for your requirements. We believe leadership starts by putting people and purpose at the centre. Bring together your experts with ours and harness the power of technology across the spectrum.

## Our Approach

## Your Transformation Journey

# Security Capabilities

Providing customers with expert and regional resources to help them understand, manage and mitigate risk. This can range from security strategy, design and deployment, policy compliance to operational managed services, all tailored to your required outcomes.

## Our Security Capabilities

### Cyber Security Advisory

Assess and advise customers on their current cyber security posture, their exposure to online threats based on pre-defined requirements and then provide a customised report of risks identified, vulnerability ratings and the steps they can take to improve organisational security as well as ensuring industry standards compliance.

### Solution Services

Assist with selecting and scoping security services, solutions and products appropriately, and provide professional services to help the customer get setup and operating by taking an outcome driven approach.

### Managed Security Services

Managed Security Service (MSS) enables automatic detection and remediation of threats with an increased action-oriented insight and scalability, with the capability to align with existing business models. Ideal for organisations that don't have a full-time security team.

The security capabilities have been designed to enable organisations of all sizes to focus on their core business successes and enable highly trained and experienced consultants and engineers to manage their security demands

**Cyber Security Advisory, Solution Services, Managed Security Services**

## Security Services Capabilities

### Benefits

#### Expertise

Global team of qualified security experts across all industries with a strong reputation of best-in-class delivery and a leader in providing the security solutions

#### Valuable Technical Security

Implementation of technical security controls aligned to business requirements and policies to ensure appropriate protection

#### Promote Security Culture

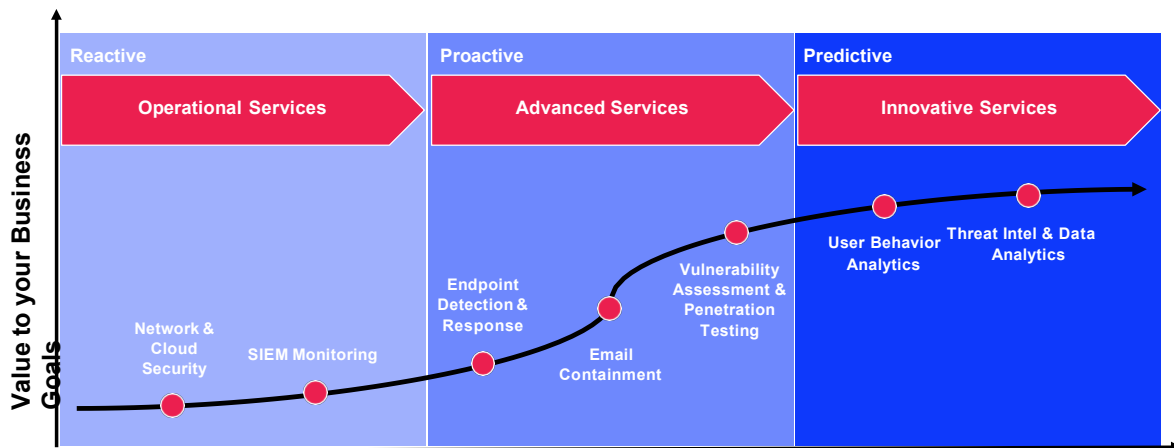

Make security more robust at all enterprise levels across people, processes and technology elements to manage the evolving risks and threats

#### Mitigate Business Risk

Achieve compliance with established security frameworks to ensure risk is regularly reviewed and appropriately managed/mitigated

### Journey to Security Maturity

### Use Case

#### Security And Threat Assessment

**Problem:** A leading global ports group was looking to implement SD-WAN infrastructure in their environment and required a security assessment to reduce the possibility of any cyber security attacks, system breaches and disclosure of confidential information.

**Solution:** Combination of internal and external Vulnerability Assessment and Penetration Testing (VAPT) was performed on the agreed in-scope assets of group and additional penetration testing on an external web application infrastructure with an option for re-test to ensure customer have resolved the identified findings. The results of the test are presented in a customised report detailing risks, vulnerability ratings and recommendations.

**Outcomes:** Risk reduced through prioritised remediation of vulnerabilities discovered in the environment.

# Protect your business

Offer – Firewall Policy  
Optimisation and Migration  
Services

For enterprise customer aiming to properly manage their network security policy across on-premise firewalls and cloud security controls. It is a delicate balancing act to reduce risk by minimizing the attack surface, and at the same time to enable productivity by provisioning connectivity for your critical business applications. Our approach and tool are to assess, simplify and automate network security policy management to make your enterprise more agile, more secure and more compliant all the time.

 <b>Duration</b>	From four (4) weeks
 <b>Format</b>	Deployment
 <b>Agenda</b>	<p>The set up includes:</p> <ul style="list-style-type: none"> <li>› Validate Subnet, routing, firewall usage, Policy and port configuration</li> <li>› Confirm the Network Connection and Diagrams</li> <li>› Check for DOA, update firmware, Threat intelligence database and license Policy</li> <li>› Migration Tool (Create, or Migrate and Optimize Firewall configurations)</li> <li>› Configure VPN for remote access with 5 sample VPN agents Installed</li> <li>› Test with staging switches for Firewall connection and port functionalities</li> <li>› Perform migration for Primary or DR site, either one site. Plan for next sites migration once it is stabilized. (Estimated 3-5 working days)</li> <li>› Perform User Acceptance Test for Primary and DR sites with fine tuning Update</li> <li>› Network diagram, Configuration file and UAT document for customer</li> </ul>

## What you'll get

- › Traffic control for internal and external network
- › Existing policy review and optimize
- › IDS and IPS protection
- › Threat Intelligence protection (Anti-Bot, Anti-Virus, Anti-spam)
- › URL filtering protection
- › Application Control protection
- › VPN and mobile device connectivity
- › Reporting and Logging for Visibility

## Benefits

- › Cover Layer 3-4 to Layer 7 Protection
- › Traffic behavioral analysis and identify anomalous activity
- › Remote access capability
- › Integration capability with DLP, or other SIEM solutions
- › Integration capability for advanced security solutions such as:
  - Email gateway
  - Web/Email Isolation
  - EDR
  - WAF

## Why Telstra Purple?

Largest Australian-owned team of technology services professionals – 1500 experts across four countries specialising in network, cloud, security, collaboration, mobility, software, data and analytics, and design.

We're committed to collaboration. We bring the best people across our organisation together with yours to design, build and deliver outcome based solutions.

Built on a foundation of acquisitions we are a powerhouse of demonstrable experience and expertise.

We've built strong partnerships with industry leaders including Microsoft (Gold), Cisco (Gold), AWS, Fortinet and more.

Telstra Purple orchestrates purpose-built solutions, with people at the centre. Bring us your opportunity. We're standing by to build and manage the solution.
