## Our Approach

## Your Transformation Journey

# Workplace Capabilities

Help empower users and transform the way they collaborate and build solutions with best-in-class productivity apps and intelligent cloud services while keeping security and compliance in mind.

## Our Workplace Capabilities

### Automation

Microsoft Power Platform - an offering that is comprised of three key products to automate and build end to end solutions

### Calling

Microsoft Teams – helps empower users to increase teamwork and collaboration with an integrated platform

### Migration

Migrate to a modern workplace from legacy platforms (Microsoft 365, Office 365, Intune)

Welcome to the “world’s productivity cloud”, a global, secure, diverse, and user-oriented workplace

“**Microsoft 365**, Dynamics 365, and the **Power Platform**, on top of what we’re doing with Azure, is the core of what we are doing as a company.” - Satya Nadella, Microsoft CEO in January 2019

**Automation, Calling, Migration**

Microsoft 365 combines Office 365, Windows 10, and Enterprise Mobility + Security (EMS) into one license, you may also choose to purchase them with add-ons separately.

## Benefits

Office 365  
(Office Suite + Services)

Enterprise Mobility + Security  
(Intune + Security + AzureAD)

Windows 10  
(License)

## Benefits

### Global reach

Roll out to offices in different countries around the world cost effectively and allowing global access to office applications and documents

### Automated processes

Help empower and enable users to do more with less time to generate value and focus on other important works

### Higher productivity

Greater teamwork and collaboration to help increase efficiency among users. Offload IT operations and Service Management to Azure

### Secure personal device management

Access corporate apps and data in a secure manner via any compatible personal device. Restrict BYOD open access

## Case Studies

### Intune migration and rollout (Migration)

**Problem:** Client, due to increased security demands, required MS Intune enforcement to access cloud-based services from external locations such as personal devices and move away from their current solution

**Solution:** Implemented and enforced MS Intune across the globe from their current solution and conducted user adoption programs

**Outcomes:** Secure environment, secure personal mobile device management, global rollout

### G Suite to Office 365 (Automation)

**Problem:** Client required to migrate from G Suite platform to Office 365 to meet the growing demands of the organisation and have a secure management of the employees' personal mobile devices

**Solution:** Migrated the client's assets including G Vault assets to Office 365 in an automated manner

**Outcomes:** High productivity, and faster project completion

### Microsoft Teams (Calling)

**Problem:** Client required a successful user adoption strategy of the new technology in Office 365 especially MS Teams with well planned, organised change management

**Solution:** Deploy Office 365 with Microsoft Teams and successful adoption strategy

**Outcomes:** Greater and faster teamwork and collaboration with increased efficiency
